$\overline{SS-200}$ C

PRODUCT DESCRIPTION:

- DEFINITION: Painting made from thermoset polymers and pigmented only with type "Leafing" aluminum sheet and resistant to constant temperature of 200 ° C.
- USE: On exposed metal parts on a temporary or permanent way to moderately elevated temperatures such as chimneys, steam pipes, furnaces, heating boilers and industrial autoclaves.
- PROPERTIES: Provides a good chemical stability film, as well as good resistance to scrub and humidity.

TECHNICAL INFORMATION

Aspect.....BRIGHT

Color......ALUMINUM GRAY

Volume solids......28%

Recommended thickness......30 - 35 micron

Drving 20 °C/70% RH

Touch......35 MINUTES Overall2 HOURS Repaint24 HOURS

APPLICATION INSTRUCTIONS:

- Method Brush, Roller, Airbrush gun, Air-Less
- Dilution If necessary use our D - 300 Solvent.

After use, clean all equipment with our Solvent S. G.

SURFACES PREPARATION:

Preparation is made by cleaning the surface to be treated through sandblasting until grade 2 S ½ of the Swedish Standard SIS 055900. When not possible, deep cleaning by mechanical or manual and subsequent degreasing with solvent.

HYGIENE AND SECURITY:

- Being a flammable product, keep away from sparks and flames.
- It is recommended the most appropriate respiratory protection to each case by the corresponding mask.
- Avoid prolonged inhalation of solvent vapors.
- During the application have adequate ventilation and maintain a constant air renewal.
- Avoid eye and skin contact, if product comes in contact with skin, wash with soap and water.
- If the product splashes eyes, rinse with water several times; always consult your doctor or the National Institute of Toxicology, Phone Number 91 - 562.84.69.

Comments

- When performance practical calculation take place it is necessary to be considered product losses by surface irregularities and application system.
- The solvent addiction proportionally modifies the solid content in the paint and therefore the thickness of wet film.
- Our Technical Department will be pleased to answer as many as questions that you are planning to ask.

Our technical service is at your disposal for further information in this booklet as well as to advise on special treatments, systems, process and the best products, according to the surface, environments and needs they wish to cover.

In this sheet, we just trying to inform and advice to our best knowledge, based on experience and research. We cannot be responsible for the consequences of using this product when application conditions and circumstances fall out of our reach and control.
